

Module 7 Study Questions

[Re-submit Assignment](#)

Due No Due Date **Points** 0 **Submitting** a file upload

Complete this brief, ungraded assignment and save it in a .txt format. Save the file like so: **[your name], X436.2, Module 7 Study**. Then, submit upload your .txt document by clicking submit on the right hand side of your screen.

1. Do you need to declare the exact types of the exceptions a method throws, or can you declare their superclass?
2. Can you catch a **RuntimeException**?
3. When should you catch an exception, and when should a method let exceptions propagate to their caller?
4. Does the Java Thread Scheduling model make Java threads nonportable? Could you write a program that determined precisely how scheduling was handled on a given platform?
